Direct Mail Experts

Integra has been involved with EDDM® since its introduction in 2011. We have extensive knowledge of the program and have mailed millions of pieces nationwide. Our program provides an outstanding return on your investment, and is easy to cost justify.

Do you want more customers? Let Integra help!

WHAT IS EVERY DOOR DIRECT MAIL?

Every Door Direct Mail (EDDM)® is a new program by the USPS that allows businesses to mail as low as 15.4 cents. You can mail postcards, brochures, menus, product sheets, samples or anything else. Integra will review your material to make sure it qualifies for EDDM.

DO I NEED A MAILING LIST?

No. Integra simply designs your mailing piece to meet the EDDM® requirements and the post office will deliver your piece to the mailing routes you choose and geo-targeted by location, zip code or city.

WHO CAN I MAIL MY MARKETING MESSAGE?

Every Door Direct Mail allows mail delivery to all homes and businesses in the carrier route you desire. Each zip code is comprised of many different routes. Each route consists of approximately 300-600 homes and businesses. You also have the option to deliver to residents only.

WHERE DO I FIND THE ROUTES?

Integra will provide a comprehensive map for your reference. The map will show all the routes in your area, and we can assist you in targeting the specifics routes you want your marketing message to hit.

CAN I TARGET NATIONWIDE LOCATIONS?

Absolutely. With Integra’s unique program developed with the USPS, we can deliver EDDM® mailings anywhere in the country.

HOW DO I GET STARTED?

Contact Integra today! We will supply you with detailed information and help you create a customized mail strategy that will provide amazing results.

DOES MY PIECE GET INSERTED INTO AN ENVELOPE WITH OTHER ADVERTISERS?

No. Your marketing piece is a standalone mailer. The recipient sees it as soon as they get their mail. This increases the response rate.

MAP

Integra’s proprietary program “EDDM Wizard” will supply you with a map of the desired radius of your location. The map will show, in detail, all the carrier routes within that area.

REPORTS

Accompanying each map will be a report showing valuable information for each route in your area. Information includes distance from your location, average home values, average incomes, median age, number of businesses, residents, homes and apartments/condos.

CONSULTATION

We will work with you to develop a specific mail strategy to provide the greatest results for every dollar spent. There may be certain areas you want to target, and some you don’t. We will also help determine the frequency of the mail drops and the quantity of each drop. When complete, your direct mail campaign will be customized to your needs and your budget.

TURN-KEY SOLUTION

Integra will print your mail piece, prepare the mailing, process the paperwork and deliver to the post office. Including postage, the total cost is still almost ½ the price of a postage stamp.
